

GO GREEN

Save time and trees with
our online statements

KMTelecom makes it easy to cut paperwork

Do something nice for yourself and Mother Earth. Streamline bill paying by receiving your KMTelecom bills electronically and paying them online. It's a small change that can yield big benefits.

By switching to electronic bills, the average household can save 6.6 pounds of paper every year. If 20 percent of all U.S. households made the switch, the collective impact would save more than 1.8 million trees.

Of course, more gets saved besides trees when you manage bills online. You also save time by eliminating the clutter of paper statements and the need to write and mail checks.

Go green, it takes just minutes to get started.

1. Go to www.kmtel.com
2. Click "pay bill" in the top right corner
3. Register as a new user (you will need your paper bill handy for pertinent information)
4. View your bill, check your long distance detail, schedule monthly payments and much more!
