Stack Up The Savings With Pick-A-Bundle

This is the season to get exactly what you're wishing for—your favorite KMTelecom services plus monthly savings. KMTelecom's new Pick-A-Bundle lets you pick the services that best fit your household from the menu of choices below. Your customized Pick-A-Bundle will cost much less than purchasing the services separately.

For example, you'll pay just \$39.99 a month for 1M High Speed Internet (Choice 1) as part of a Pick-A-Bundle, compared to \$49.99 a month when pur-

chased à la carte. That's a savings of \$10 a month and \$120 a year!

Clearly, it pays to bundle with Pick-A-Bundle. So start by picking your choice of telephone plans, then add your choice of high speed Internet, television, and/or cellular services. The savings will quickly stack up, and so will the convenience, since you'll be getting all of your services from one company.

For more details about Pick-A-Bundle, pick up the phone and call 634-2511.

Social Networking Now

Have you been invited to “follow me on Twitter” or “become a friend on Facebook”? If you haven’t yet joined the social networking landscape, you may want to give it more thought. After all, social networking sites are not going away and are a convenient way to communicate with current friends, reconnect with old friends, stay in touch with family members, and meet new people.

The list of social networking sites is long, but some of the most popular ones are:

Facebook · www.facebook.com

The fastest growing social networking site in the world gains a million new users each week. You can share information both on your own Facebook page and friends’ pages, leave private messages, or post public messages in a space called the “Wall.” Activity on your page is reported to friends on their pages and vice versa. Private messages and comments are reported to you via regular e-mail, so you know when to check your Facebook page. With versatile Facebook tools, you can share photos, videos and links; chat in real time; and proclaim favorites in many different categories such as movies, books, and famous quotations.

Twitter · www.twitter.com

This site allows users to post short answers, called “tweets,” to the question, “What are you doing?” Each tweet must be 140 characters or less, so you have to get straight to the point. It’s a fun way to find out what’s happening right now with friends, family, and even celebrities. In addition to posting tweets and responding to those you follow, you can use Twitter’s search tools to find tweets on any topic posted by people all over the world.

LinkedIn · www.linkedin.com

Perhaps the best known of the business networking sites, LinkedIn is a professional network with members ranging from executives of Fortune 500 companies to employees of small businesses. It’s part social network, part business networking tool, and part expert advice resource. The site can help you manage the information that’s publicly available about you, introduce you to subject experts, give you insights from discussions with other professionals, and discover inside connections that lead to job prospects.

We encourage you to explore these and similar sites, and learn how to use them effectively and safely. They can make a valuable addition to your social life.

Treat Yourself!

Treat yourself this holiday season. Enjoy some family time together watching great movies. Choose from Starz!/Encore, Showtime, Cinemax or HBO. The best value choice with Pick-A-Bundle is Choice 3! You will save \$14.99 per month with this choice! The winter weather is upon us, stay inside and spend some family time together. Check out all of our great savings plans when you Pick-A-Bundle!

Reasons to Have a Landline Phone

Think twice before you eliminate your landline phone, since a landline phone is the most reliable device and offers these valuable advantages:

- Provides security in an emergency with reliable 911 communication.
- Offers superior sound quality and clarity.
- Works even during an electrical outage (make sure it’s a corded phone).
- Eliminates the need to charge batteries.
- Provides unlimited local calling.
- Never drops your calls.

Don't Become a Scammer's Next Job

In today's economy, more people are becoming unemployed. Looking for work can put you in a vulnerable position as you attempt to get back on your feet professionally and financially. It's just this vulnerability that scam artists take advantage of with identity theft, Internet fraud, and fake work-at-home schemes. They may scour job search sites and contact you for personal information, or offer you "pay" and then use your bank account to take money from you.

Fortunately, there are steps you can take to protect yourself:

- Do your homework! Research companies to make sure they are who they say they are.
- Be skeptical. If it sounds too good to be true, it probably is.
- Closely guard your personal information such as credit card numbers, bank account numbers, and your Social Security number.

Unlimited Texting for up to 6 family members—only \$30/month
