## Programming Your Remote Using Brand Code

Make sure your TV set is turned on. (The set-top box does not need to be turned on to perform this programming feature.)

1. Manually turn ON the TV that you want to program to the remote.
2. Press and release the **TV** button.
3. Press and hold the **SETUP** button until the **TV** button blinks twice.
4. Press and release the **TV** button again.
  - The TV button will now stay lit.
5. Find your TV brand from the chart and note the assigned number.
6. Press and hold down the **NUMBER** button for your brand while pointing the remote at the TV.
7. Let go of the button when your TV turns off.
8. Press the **POWER** button to turn your TV on.

The remote is now programmed for the assigned TV.

NUMBER	BRAND OF TV
1	Insignia
2	LG
3	Panasonic
4	Philips/Magnavox
5	Samsung
6	Sanyo
7	Sharp
8	Sony
9	Vizio
0	Westinghouse

## Programming Remote Using Auto Search

If your TV's brand is not listed above, then the Auto Search method can be used.

**Note:** This process may take up to 5 minutes to find your TV code.

1. Manually turn on your TV.
2. Press the **TV** button once.
  - The TV button will blink once.
3. Press and HOLD the **SETUP** button until the **TV** button blinks twice.
4. Type **9 9 1**.
  - The TV button will blink twice.
5. Press and release the **CH +** button continuously until the TV turns off.
  - The remote searches through codes from its built-in library using this method.
6. Press the **SETUP** button after the TV turns off.
  - The TV button light will blink twice to indicate that the code is saved.
7. Press the **POWER** button to turn the TV back on.

The remote is now programmed for the assigned TV.

*If the Auto Search fails to successfully setup operation of the TV set, then the remote is unable to control that particular TV set.*
